Summery

I'm an aspiring Full Stack Web Developer with a computer science background, eager to apply my skills to build dynamic, responsive web applications within a collaborative team.

Projects

Food Ordering Application 🔗 | *React.js, HTML, CSS, JavaScript, MongoDB*

- Built a secure administrative dashboard with role-based access for authorized users.
- Implemented features for admins to efficiently manage menus, food items, and discount coupons.
- Integrated Stripe for seamless online payment processing.
- Developed a user-friendly search functionality to help users find their favorite dishes easily.

Task Tracker App 🔗 | *React.js, Redux, HTML, Tailwind CSS*

- The application allows users to add, delete, and mark tasks as completed.
- Enables task completion marking and visually distinguishes between completed and incomplete tasks.
- The application offers a responsive interface, ensuring usability on both desktop and mobile devices.
- Tasks added by the user are saved in local storage, allowing them to persist even after the page is refreshed or the browser is closed.

Technical Skills

Frontend: HTML,CSS, JavaScript, React.js, Redux.js, Bootstrap, Tailwind CSS
Backend: Node.js, Express.js, Appwrite
Frameworks: Express, Bootstrap, Tailwind CSS
Database: MongoDB
Environment: NodeJs
APIs: Rest
Version Contr: Git, GitHub
Cloud/Hosting: Netlify, Render, Vercel, Cloudinary
Tools: VS-Code, Postman

Education

Savitribai Phule Pune University   **Dec 2022 – April 2024**
Master of Computer Application   *CGPA: 7.89*

Amravati University   **Sep 2019 – Aug 2022**
Bachelor of Computer Application   *77.89%*

CERTIFICATION/INTERNSHIP

Code Clause Web Development Internship Certification | April 2024 – May 2024

- Developed ToDo List app using React.js, Redux, HTML, Tailwind CSS, JavaScript.
- I created a landing page using HTML, CSS, and Tailwind CSS, gaining a foundational understanding of front-end development

MongoDB Developer Path Certification | Oct 2024

- In this course, I learned the fundamentals of MongoDB, including CRUD operations, data modeling, and indexing with Node.js.
- I learned how to create aggregation pipelines with Node.js and explored MongoDB Atlas, including its latest features and how to deploy clusters.
