WORK EXPERIENCE

Serverwala Cloud Data Center, Mumbai Maharashtra

Full Stack Developer   Feb 2025 - Present

- Responsible for maintaining, updating, and optimizing websites to ensure modern design and high performance
- Building responsive and modern user interfaces focused on usability, visual consistency, and seamless experience across devices and screen sizes.
- Writing clean, maintainable code and integrating APIs to support dynamic, data-driven features.
- Collaborated with team members to review code, implement features, and resolve bugs in an agile development environment.

SKILLS

Frontend: HTML, CSS, JavaScript (ES6+), React.js, Redux, Zustand, Tailwind CSS, Bootstrap
Backend: Node.js, Express.js
Database: MongoDB
Version Control: Git, GitHub

PROJECTS

Food Ordering Application ⧉
Tech Stack: React, NodeJS, Express, Tailwind CSS, MongoDB
- **Developed** a secure and responsive administrative dashboard accessible only to admins, with features to efficiently manage menus, food items, and discount coupons.
- **Designed and implemented RESTful APIs** for user login, registration, food ordering, adding to cart, and searching food items, ensuring smooth backend functionality.
- **Integrated Stripe** for seamless online payment processing and **implemented JWT-based authentication** for secure access control.
- **Built a responsive web application** with a user-friendly search functionality to help users find their favorite dishes easily.

Task Tracker Application ⧉
Tech Stack: React.js, Redux, Tailwind CSS
- The application allows users to add, delete, and mark tasks as completed.
- Enables task completion marking and visually distinguishes between completed and incomplete tasks.
- The applications offer a responsive interface ensuring usability on both desktop and mobile devices.
- Tasks added by the user are saved in local storage, allowing them to persist even after page is refreshed or the browser is closed.
